MY PROFILE

With more than three years of experience in web development, I would like to increase my experience in IT field.

EXPERIENCE

FRONT-END WEB DEVELOPER

Tata Consultancy Services (Aug 2020 – Jun 2024)

- Build new features and resolve defects on one of the client's main web application, working with JS technologies such as ReactJS, Typescript and NextJS.
- Work with unit testing using Jest to ensure quality and functionality of code changes, as well as in Test Driven Development.

HELPDESK ANALYST

NTT Data Services (Jul 2016 – Jan 2020)

- Assist users by diagnosing and resolving issues with their computer and clinical apps.

EDUCATION

JAVA FULL-STACK DEVELOPER

Generation (Jan 2020 – Apr 2020)

- Front-end (JS, HTML, React, Bootstrap, CSS), Backend (Java EE) and Database (MySQL).
- Agile and Scrum methodologies and soft skills improvement.

BIOMEDICAL ENGINEERING

CUCEI (Jan 2015 – Jun 2020)

- Applied engineering techniques and principles to address problems and needs in the healthcare industry through the design, construction and maintenance of medical equipment and prostheses.

TECH STACK

HTML, CSS, JS

ReactJS, NextJS, Typescript

Jest, Cypress

Git, Github

Java, Springboot
